

JOB DESCRIPTION

Position: Research Assistant

Department: Data and Research Department

No. of requirements: 02

JOB SUMMARY

We are looking for two driven and detail- oriented Research Analysts to join our growing team. In this role, you will be at the forefront of Nepal's capital markets - tracking NEPSE dynamics, conducting rigorous fundamental and technical analysis, and delivering insights that shape investment decisions and product strategy.

KEY ROLES AND RESPONSIBILITIES:

- Track and analyse NEPSE market data - indices, sector performance, trading volumes, and trends.
- Conduct fundamental and technical analysis on listed securities.
- Monitor and report on regulatory developments from SEBON, NRB, and the Insurance Board.
- Research macroeconomic indicators and assess their impact on Nepal's capital markets.
- Support the Head of Research & Data with analytical briefs and capital market research inputs.
- Research FinTech trends and their applicability to Nepal's financial ecosystem.
- Analyse competitors, user/investor behaviour, and market trends to generate data-driven insights.

QUALIFICATIONS, EXPERIENCE AND SKILLS:

- Bachelor's degree in Business, Economics, Finance, or equivalent; CA, CFA, or ACCA is a plus.
- 1–2 years of relevant industry experience.
- Proficiency in MS Excel (advanced), financial & technical analysis.
- Experience with data visualization, reporting tools, Google Analytics, and web analytics tools.
